

COVID-19 Exposure & Control Plan – TOURS, SKILLS COURSES, RENTALS & SHUTTLES

Hoodoo Adventures remains committed to providing a safe and healthy work and program space for all our participants and staff.

Physical Distancing

Social distancing can be challenging in certain settings. At the same time, it is extremely important, and we will do everything we can to adhere to physical distancing protocols.

We will adhere to the following protocols and procedures:

1. All Universal Safe Work Procedures and Prevention will be followed
2. Additional cleaning measures and protocols will be adhered to as follows
 - Regularly clean and sanitize items that are designed to be shared (for example: trailer handle, shuttle seatbelts and door handles)
 - Equipment will be allocated to individuals so that it is never shared. Equipment will be numbered so that participants can keep track and only use their own equipment (for example: paddles, 2 locking carabiners will be given to each participant)
 - Staff fitting harnesses to participants will follow protocols as per climbing guidelines laid out by industry standards and regulations.
 - Helmets will only be used once a day and they will then go through a sanitation bin to be soaked for 5 minutes and then hung to dry.
 - Strict Rescue Guidelines will be followed at all times to allow for distancing or alternate safety systems will be put in place
 - Rental Equipment will be sanitized between each use
 - Shuttles and tours will be offered to private groups. Groups will not be mixed unless approved ahead of time.
 - PPE will be available for shuttle participants

Screening participants

1. Phone and in person screening of participants, staff will ask questions about symptoms and potential exposure
2. Staff are to immediately contact a supervisor if they have any concerns based on answers given.
3. Anyone that is exhibiting any symptoms will not be allowed to participate
4. Any participant that is unable to follow the rules after sufficient warning, will be removed from the program without reimbursement.

*Staff will be given intensive training on Covid-19 protocols and procedures in accordance with Health Authorities and Worksafe BC Guidelines.
